

Company overview

Aceit Digital Inc. is a Calgary-based consultancy and Government of Canada prequalified supplier. We hold a federal supply arrangement and deliver as business consultants in digital transformation, Agile coaching, AI automation and cybersecurity training. Since 2020 we have delivered for private, nonprofit and public service clients. A core team leads every engagement, supported by vetted specialists, so clients get senior attention from start to finish.

Core competencies

- **Business consulting:** business analysis, process mapping and improvement, and new program or business setup, including sales automation.
- **Digital transformation and AI automation:** process audits, tool selection, automation build, data migration and system integration.
- **Agile coaching:** team and leadership coaching, Agile team setup, reporting templates, delivery roadmaps and metrics.
- **Training:** cybersecurity awareness, safe AI use and technology adoption, including end-user training and documentation.
- **Digital platforms:** requirements, UX and UI design, project management and launch support for web platforms and portals.
- **Role and HR documentation:** bilingual job descriptions and role frameworks for digital and Agile teams.
- **Software licensing:** Adobe licences as an Adobe Certified reseller.

Past performance

Client type	What we delivered	Result
National business development nonprofit	Grants management platform: requirements, user design sessions, UX and UI, project management, multilingual delivery, training and documentation (2022)	Platform serving about 5,000 users across government agencies and partner organizations
Staffing firm	Sales pipeline design and execution, from opportunity selection to final submission	Won qualification in two service categories
International nonprofit	Web platform with admin roles, social media studio, impact reports and sponsor letters	Staff publish content and report to donors without a developer
National entrepreneurship training program	AI automation training for small business owners	One participant recovered 30+ hours and won over \$80,000 in grants

Why Aceit Digital

- **Senior delivery on every file.** The people you meet are the people who deliver.
- **Fast mobilization.** A boutique team with short decision cycles and quick starts.
- **Bilingual deliverables.** English and French documentation and reporting.
- **Business and technology in one team.** We turn requirements into working systems.
- **Knowledge transfer built in.** Every engagement ends with training and documentation.
